

Happy Easter

Malina 先生からのレポート

On March 31st, 2013 we had an Easter party at the Kaihinmakuhari school.

It was Easter day and everyone was ready to celebrate Easter!

Children from the age of two to ten participated.

We played games such as "What's this?" which the children had to guess what was hidden in the bag. The children found alphabets and Easter stuff such as "Egg" and "Rabbit". We also played games such as "Shape game" and "Easter bingo". After playing games we did egg coloring. We decorated the eggs with dye and crayons. Everyone made such great eggs! After the egg coloring, we went outside to a park for an egg hunt! Even though it was very cold outside, everyone had a lot of fun looking for the eggs and finding chocolate in the eggs! I'm so thankful to everyone who helped with this party to make it a really great party! Thank you very much.
